

**Position Title**

Tenured/Tenure -Track Faculty in Information Systems or Supply Chain Management

**Location**

College Station, Texas

**Position Type**

Tenure -Track or Tenure Review Upon Hire (either): Open Rank

**Position Description**

The Department of Information and Operations Management (INFO) at Mays Business School, Texas A&M University, invites applications for a full-time tenured/tenure-track faculty position in the areas of Information Systems or Supply Chain Management, with a nine-month (September – May) academic appointment, beginning Fall, 2024 . Applicants will be considered for the faculty titles of Assistant, Associate, or Full Professor, depending on qualifications.

Candidates who are exceptionally well qualified may be offered the opportunity to begin their employment on August 1, 2024 as well as the opportunity to earn up to two months of additional salary during the summer for the purpose of supporting their research activities.

Successful candidates will be expected to contribute to the advancement of knowledge through high quality publications in leading academic journals, to teach courses with rigorous academic content at the undergraduate, masters, and/or doctoral level, and to engage in service and outreach activities that advance the educational mission of the department, the school, and the university.

The INFO Department has 11 clinical faculty, 22 tenured/tenure-track faculty, 8 lecturers, a doctoral program, 480 undergraduate majors (250 IS and 230 Supply Chain), and 210 MS-MIS students. Mays Business School recently celebrated its 50th anniversary and its undergraduate, MBA, and executive programs are rated by U.S. News and World Report and Forbes as top-25 public business programs (<http://mays.tamu.edu/rankings/>).

The department is highly active in research. Texas A&M ranks 4<sup>th</sup> worldwide in publishing in *Journal of Operations Management*, *Production and Operations Management*, and *Manufacturing and Service Operations Management* from 2017-2023 (Source: UT-Dallas top 100). Collectively, the faculty hold 18 editorial positions in the top journals of the field.

The College Station-Bryan metro area has a population of 250,000, a low cost of living (including no state income taxes), excellent schools, very low crime, and excellent health care. The College Station airport is served by American Airlines. College Station is a 1:20 drive to the Houston airport, 2 hours to the Austin airport, and 3 hours to the Dallas-Fort Worth airport.

**Qualifications**

Applicants for this position should possess an earned doctorate in information systems, supply chain management, or a related field. At the assistant professor level, preference will be given to candidates with demonstrated potential for publishing high quality research in leading journals. At the associate or full professor level, preference will be given to candidates with established high-quality research records and the ability to extend the national reputation of the department through scholarship and service.

**Application Instructions**

Applications must be submitted through Interfolio at the following URL: <https://apply.interfolio.com/128730>

by December 1, 2023. Questions regarding this position may be directed to Dr. Bala Shetty at [b-shetty@tamu.edu](mailto:b-shetty@tamu.edu).
