

Assistant/Associate Professor of Supply Chain Management

Department Description:

About the Knauss School of Business

The Knauss School of Business at USD embraces a stewardship approach to business education. Stewardship requires businesses to protect and care for society in pursuit of a greater good. The Knauss School community of faculty, staff, students and graduates, embrace stewardship by applying values-driven, free-enterprise skills to improve businesses, industries, and the lives of people in our community and around the world. We provide academically rigorous, relevant and values-based education and research. Degree programs in the Knauss School are AACSB accredited, with the undergraduate and MBA programs being highly ranked both domestically and internationally.

Knauss School of Business Diversity Statement

The Knauss School of Business at USD strives to create a welcoming environment that promotes diversity, equity, inclusiveness (DEI) and ethics, commensurate with our Catholic mission. We value students, faculty and staff from different backgrounds, demographics, experiences, perspectives and faiths.

These differences broaden our understanding of the world, and by extension, our ability to excel in learning, teaching, scholarship and service. We view the promotion of DEI as inexorably tied to the maintenance and enhancement of academic excellence, our development as civic and campus citizens, and the realization of compassionate service.

We are committed to achieving a more diverse campus community. This improves our ability to identify challenges, propose innovative solutions and implement more considerate policies. We greatly value all efforts to remove prejudices from academic and business environments, to promote social justice through scholarship and service, and to attract and increase retention of underrepresented groups.

To this end, the Diversity 2024 committee and the Building Inclusive Excellence Council (BIEC) are dedicated to providing recommendations to promote DEI at the Knauss School of Business. These include faculty climate surveys, implicit bias training, reflections on and the standardization of hiring practices, seminars or search committees, as well as other workshops on prejudice and discrimination.

About the Operations, Supply Chain Management and Information Technology Management Department

Department faculty are active in research and have published in top-tier journals including MSOM, POM, International Journal of Operations & Production Management. The department is responsible for teaching courses in supply chain management, management science, operations management data analytics, and information systems at the undergraduate level as well as in the full-time MBA, professional MBA, and several MS programs, including an MS in Supply Chain Management and MS in Business Analytics. The department manages the undergraduate supply chain management major and two minors, the MS in Supply Chain Management and the MS in Business Analytics.

Detailed Description:

The Operations, Supply Chain and Information Management Department in The University of San Diego's (USD) School of Business is seeking qualified applicants for a tenure track position at the assistant or associate professor level in Supply Chain Management or Decision Sciences with a start date of September 2024.

The teaching environment at the University of San Diego is student-centric with strong emphasis placed on providing a personalized educational experience for students. The department is responsible for teaching courses in supply chain management, management science, operations management data analytics, and information systems at the undergraduate level as well as in the full-time MBA, professional MBA, and several MS programs, including an MS in Supply Chain Management and MS in Business Analytics.

Department faculty have published their research in top-tier journals in operations, decision sciences, and supply chain management. Applied research is valued and many opportunities for industry linkages and research projects come from working closely with the University of San Diego's Supply Chain Management Institute.

Special Conditions of Employment:

Effective June 1, 2023, based on CDC guidance, the University strongly encourages all campus members to stay up to date with Influenza and COVID-19 vaccination recommendations. For more regarding information USD's COVID-19 protocols, please visit sandiego.edu/onward.

Background check: Successful completion of a pre-employment background check.

Degree Verification Requirement: Persons offered employment in this position will be required to provide official education transcripts for degree verification purposes.

Job Requirements:

The successful candidate will have a PhD (or ABD near completion) in Operations Management, Supply Chain Management or Information Management from an AACSB accredited program prior to the start of appointment and is expected to maintain a record of scholarly achievement in field-specific, peer-reviewed outlets as well as dedication to teaching excellence and service in a liberal arts environment. Those applicants not currently holding a terminal degree must have clear evidence of an expected completion of the doctoral degree prior to the start date.

Posting Salary:

\$11,484.09 - \$13,333.34 per month; Excellent Benefits

The University of San Diego offers a very competitive benefits package including; medical, dental, vision, a retirement contribution given to you by the University, and access to on-campus Fitness Centers. Please visit the benefits section of our website to view all of the perks and benefits that USD has to offer.
